CRL Shallow and Deep Wet/Dry Glaze U-Channels provide the smallest profile U-Channel for glazing 3/8" or 1/2" (10 or 12 mm) glass. They are available in six standard finishes in both 120" and 240" (3.05 and 6.10 m) stock lengths.

Wet/Dry Glaze U-Channels provide the most economical way to glaze heavy glass. Using a Deep U-Channel on the top and the Shallow U-Channel on the bottom allows for the 'lift and drop' method of glazing. The glass can be secured with silicone sealant or our Top Load Roll-In Glazing Gasket (shown on opposite page).
